

One Point of Contact for Canada and the U.S.

Submit your study once for comprehensive and reliable results.

The Right Choice

Quorum Review IRB is one of only a few ethics boards qualified to review studies conducted in Canada and the U.S.

What does that mean for you?

More efficiency. More consistency. Fewer hassles.

You only need to submit your materials to one person, one time.

Your account manager will handle submission and review of studies conducted in the Canada and the U.S. This not only allows for standardization, but also convenience for you and everyone involved.

Consent Form Management

Our consent form editing service ensures that **consent forms are compliant with Canadian and U.S. regulations.**

Quorum adds specific language to Canadian consent forms to satisfy requirements set forth in the Tri-Council Policy Statement.

Note: Certain provincial restrictions that apply to most other central REBs in Canada also apply to Quorum Review.

Conveniently standardize your consent forms and let your account manager handle your review.
More efficiency. More consistency. Fewer hassles.
