

# Quorum Advantage Program

Engage early and add value to your clinical research before it begins. Get the largest offering of complimentary services available.

## For Your Study

### Dedicated Account Manager

Early engagement and One-Touch Collaboration™ ensures we exceed your study startup expectations.

### Pre-Submission Board Chair Protocol Assessment

Enhance your research and accelerate the review process. Our Board Chair assesses your protocol in advance and makes recommendations to prepare it for submission.

### Accelerated ICF Editing

Quorum gives your study a head start by preparing your consent form(s) before you formally submit your protocol for review. You only need a draft protocol to get started.

### Regulatory Consultation

Get insightful consultation from the regulatory experts at Kinetiq, the research consulting division of Quorum. For studies with 50 or more sites, you can get up to 5 hours of complimentary consultation. Your Account Manager facilitates conference calls between you and a Kinetiq consultant.

## For Your Sites

### Site Match™

Through our premier site directory, Quorum delivers a customized list of investigators based on your individual study criteria to help you find the right sites for your studies.

### Site Outreach

Quorum manages communications with Site Match selected sites on your behalf. This outreach efficiently determines if sites are interested in participating in your studies.

### Site Startup

**Site Activation** – Once your sites are identified, we assist with their application and provide personalized support through the submission process.

**Site Migration** – When you submit a related study or extension trial to Quorum, we accelerate site activation and save investigators time by transferring site summary information from previous study submissions to new submission forms.

**Form Migration** – When you transfer studies to Quorum, we accept documents from other IRBs and migrate the site summary information onto our forms.

## Starting a Study?

Quorum offers a full spectrum of services designed to streamline submission and review processes. Experience the Quorum difference!
