

# The Best eConsent Solution Available

**Easy. Fast. Affordable.**

With Q Consent™, gain affordable flexibility to optimize your research with a secure, cloud-based solution that activates studies in days. Offer participants a positive and engaging consenting experience while ensuring efficiency and compliance.

## Improve Accuracy

Get consent documentation right the first time. Every time. Never worry about versioning, re-consenting, or missed signature lines with state-of-the-art version control and compliance alerts.

## Save Money

Q Consent is a fraction of the cost of other solutions. SaaS subscription pricing provides a low-cost entry and it's pay-as-you-go. No hidden or add-on costs. No hardware to buy.

## Integrate to Innovate

Q Consent innovates real-world informed consent. IRB review and eConsent can be faster and integrated. Plus, electronic trial master file (eTMF) integration is available.

## Start Research Faster

Accelerate study startup. Use your forms and your processes. Other tools require customizations that take weeks. Our tool allows you to stand up your study in days.

## Ensure Compliance and Security

Q Consent meets or exceeds stringent privacy and security requirements, including FDA 21 CFR Part 11, HIPAA, HITECH, COPPA, and PIPEDA.

## Track Real-Time Metrics

Dashboards and remote monitoring save trips to sites. Gain a holistic view of participant enrollment at all sites, including electronic and wet signatures, regardless of IRB of record.
