

# The Most Preferred IRB

# Our Mission

To protect study participants through high quality reviews, to build a community dedicated to the well-being of all people, and to drive research forward together.

# Quorum Advantage Program

## For Studies

Drive efficiency into every stage of your study:

- Pre-submission protocol assessment and other services
- Dedicated account manager
- Accelerated ICF editing

Our accelerated services improve study start-up

## For Sponsors & CROs

# Gain free services to streamline your submission and review

**Site Match™:** Find the right sites for your studies through our premier site directory.

**Site Outreach:** Quorum manages outreach with selected sites on your behalf.

### **Site Start-Up and Transfer:**

- **Site Activation:** Personalized support through the submission process.
- **Site Migration:** Transferring site summary info to new submission forms.
- **Form Migration:** Accepting docs and site summary info from other IRBs.

# One-Touch Collaboration

Faster study start-up. Exceptional service.

One-Touch Collaboration™ builds flexibility and timeliness into your research reviews for increased efficiency.

- One price
- One board
- One study contact
- One start-up timeline

Do you know  
where your  
study is?

## Institutional Biosafety Committee

Coordinated, seamless IRB and IBC review and flexible administration adapts to your needs. Let Quorum do the heavy lifting.

- One contact
- One system to access approval
- One integrated stream of communications with all sites
- One IBC ops process from review through record retention

# Platinum Program for Institutions

The Platinum Program for institutions opens doors for sponsors and CROs to:

- Identify quality research institutions
- Find research institutions committed to responsiveness
- Access academic medical centers, hospital networks & more

Quorum is the most preferred central IRB among sites. The Platinum Program offers institutions a hands-on way to:

- Streamline work with sponsors via an institutions team
- Consistently process study submissions for researchers
- Pursue exclusive IRB training with Quorum

# Extensive IRB Expertise and Research Ethics Experience

- Members come from fields including medicine, education, social work, clinical research, and the clergy
- Board members represent broad diversity of our communities, including gender, race, disability, age, and socioeconomic level

## Prompt Reviews to Help Lead Oncology Research to Cures

Our Cambridge board focuses on oncology studies. All Quorum boards leverage the expertise of our oncology specialists and have reviewed studies of the most innovative therapeutic strategies of the field in all research phases, including:

- Immunotherapy
- Antibody-Drug Conjugates
- Gene Transfer
- Targeted Therapy
- Radiotherapy
- Cancer Diagnostics

## The Best eConsent Solution Available

- Improve accuracy and consent documentation
- Start research faster using your forms and processes
- Save trips to sites with remote monitoring
- Integrate with a leading eTMF solution

**Q Consent exceeds the most stringent eConsent privacy and security requirements, including:**

FDA 21 CFR Part 11, HIPAA, HITECH, and more

**Quorum not your IRB of record? No problem!**

Q Consent handles any study regardless of IRB review and aggregates all sites onto a single dashboard.

# Activates studies in days instead of weeks

Why our clients love Q Consent:

- Device agnostic—  
use any tablet or PC
- Version control—  
no missed signatures or  
re-consent worries
- IRB integration—  
your forms and processes
- Better engagement—  
form previews and online Q&A
